

BULKHEAD SYSTEMS

HMFG's Bulkhead systems offer the most robust & versatile design in the industry. Our Bulkheads feature the same heavy duty frame as our Bi-Fold door system with bolt-in panels for multiple configuration. Bulkhead options include; solid (4) section panels, single man door, man door airlocks, louver dampers, booster fan mounts, and single equipment door panels. Use our online Door Configuration Tool to design your Bulkhead system.
