

TRACK SCRATCHERS

Hoffman Manufacturing offers bolt on Track Scratchers for John Deere 455 Drills. Track Scratchers greatly reduce tractor compaction and allow growers to run equal down pressure across drills reducing costly drill maintenance. Track Scratchers feature two rows of tines to increase track removal and allow residue to pass through.

KEY FEATURES

- Robust design for years of service
- 4 bolt mounting system
- Installation hardware included
- Tines & points included
- Hydraulic hoses with quick couplers
- Greatly reduces tractor compaction in seed bed
- Increase yields for up to 20% of effected crop
- Hydraulic operated tines
